

Judges Statement: *Designed to serve as the community gathering facility and replicating a historic mountain barn. The thoughtful details of this wonderful 23,425 sq ft space includes all the elements for the best in sports and community gatherings while achieving Silver LEED rating. The use of recycled tin ceilings, iron work and wood columns reclaimed from the site with the best in building systems optimized for long term performance.*

With a greatly expanded depth of amenities and attention to environmental concerns, this well-rounded facility responds to the call of the 21st century; respecting the past and looking towards the future.
